

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton

Summer 1875.

By O-GE-MAS-ES (Little Clark).

(Copyrighted)

(Continued)

The Indians of the invited women was particularly bloodyhanded and quite mad with rage. The young braves backed him up and were searching everywhere for A—; no doubt it would have gone hard with him if his life had been spared. Our interpreter took him, however, to the house of his host, who was trying to make some sort of settlement that night; they however would not treat. They would not smoke, but clamored for the guilty man to be sent to the hot seat for our own heads. Of course, he could on no account surrender him to their far from tender mercies. Next day, by good luck, Chief Factor McDonald returned sooner than expected and there was a Grand Council held in the large Indian room of the fort, some forty of the leading Sioux being present.

It was a fine sight and an education for us youngsters to see this spare Scotchman walking up and down for the assembled Indians and rating them as they were a school of school boys. I only remember the general tenor of his remarks which were chiefly delivered through an interpreter, though at times he would break into Sioux interspersed with Gafle and Cree.

The speech follows:

"Did you not feel the foot yourselves when full of fire water? The woman is not hurt. What is all this fuss about? You wait until my back is turned and then rush in here at night to attack us. You Indians are not a pleasant people. Anyways with his patriotic feelings he told the fortune of the Sioux, and they shortly moved camp and I heard no more of them.

These Sioux, or Dacotah Indians, were not a pleasant people, of both sexes were half-breed, but they nearly all had a hard, fierce expression, and a pensive face were a rarity. Their tepees were scrupulously clean, and they were very sparingly dressed in their personal appearance. One could not afford to deal with them, for their hands were red with much innocent blood of white people, and when it came to saving helpless prisoners from the Sioux, it was claimed the Sioux were the most civil I will report you to the Queen's Red Coat Soldiers at Fort Folly. You cannot go back across the line as the Big Kettle River, and the Sioux will be wiped out this" (clapping his hands together), and so on in much the same strain.

McDonald was right. The Mountie Police were being organized at Fort Folly that summer and the first fact of their red coats (which were to be the same as the Scotch Canadians) had created a tremendous impression amongst all the Indian tribes.

After a long pow-wow, the damage to the Indians and the injured feelings was compensated by a nominal payment, which amount was duly charged to the guilty clerk's account, while he was smuggled out of the fort and sent back to his post with orders to stay there. Poor Mountie, who had been with his family for some years and then dismissed him, and from that his course was downward.

A peculiar incident took place with the Sioux a little later. A small band of Crees had come in from the plains and had been staying at the side of the fort (the Sioux were on the east). They were well supplied with buffalo robes, dried meat and pemmican, also lots of ponies. This was very unusual, for the Cree, which came from the north, had never been so poor as the Sioux were. They finally made friendly overtures to the Crees, which were accepted, and then challenged them to a final gamble, which was promptly taken up. I had never watched any Indian gambling so was very much interested and had young McKay along the

R. G. McNeille, Assistant General Passenger Agent of the C.P.R. at Winnipeg.

France May Occupy
The Kuban Basin

France to Encourage Slavery; Germans Refuse to Meet Demand

Paris—Germany's obligation to the Allies will be fixed at between 130,000,000,000 and 150,000,000,000 gold marks, by the Allied reparation commission, says the Echo de Paris. The sum will be paid in gold, and the amount will depend upon the solution of certain questions still being considered. In case Germany resists settlement, the new reparation commission is expected by the Allies that France will recall two clauses of the armistice, the labor and the demand to occupy the Kuban Basin. This district includes the most important coal mines and industrial plants of Western Germany.

War Widows Plead For Land

Manitoba District Reserved For Soldiers Is Opened Up.

Orillia—The Soldier Settlement Board has been advised that at the opening of the Riding Mountain mission, the first soldiers' land, which took place at Dauphin, Manitoba, 91 farm units were disposed of. Three hundred and twenty-four took part in ballooning, including five war veterans. The Riding Mountain lands include two townships south of Clew Lake, near Erickson. The farm units vary in size from 240 to 320 acres.

Will Try to Satisfy U. S.

France Replied to Mandate Note Received from Washington.

Paris.—Premier Briand has despatched to Washington a note acknowledging receipt of the communication from the United States department regarding the mandate over certain Islands north of the equator, which was given to Japan.

The Premier's note, says a representative of France, will take up the question of the mandate, "with the Allied Council," until the most ardent desire to find a solution giving satisfaction to the United States."

Germany to Submit Further Proposals.

Berlin.—Germany's says it understands the German Government probably will make use of an intermediary through whom it will submit new proposals to the Allies concerning reparations. The newspaper adds that a memorandum of understanding to attempt to induce President Harding to intervene with a view to bringing about renewed negotiations between the Entente and Germany.

A Long Walk.

Dawson—Frost-bitten, former English track spinner, has arrived in Dawson after walking 360 miles from White Horse, in seven days, 13 hours, lapsed into the fastest time ever made over a winter track on foot. He is 44 years old.

Kingston Penitentiary Full.

Kingston, Ont.—Not since the days of the Frian Raid had hundreds of Canadian prisoners been kept at the Kingston Penitentiary so long. The population of the prison has been so great that the Penitentiary has been held to a standstill. An immediate reply is requested.

Montreal—Roy M. Wolvin, president of the Dominion Steel Corporation, corroborating the dispatch from Halifax, stated on behalf of the British Admiralty that the British government had harassed the leaders of the Republican side persistently for more than four hours. Charges that the Republicans had "deliberately" set fire to the "Sparta" were hurtful, not only to Representative Garrett, Tennessee, acting Democratic leader, but by Representative Newlin, Minnesota, and Representatives Luce, Massachusetts, both Republicans as well.

Republicans who sought to amend the bill were disposed of with the same celebrity as Democrats and the bill now goes to the Senate.

The bill, as passed by the House, is technically identical with the bill introduced by Mr. Wilson, but the bill would be a number of agricultural products, including wheat, cotton, sugar, wool, corn, cattle and sheep, but the bill would be operative for only six months instead of the period provided for in the Fordey.

The anti-dumping provisions also were not included in the Fordey, together with a system for estimat-

ing the duties imposed on the basis of the United States value of foreign coin as determined by the secretary of the treasury.

Canada Will Supply Coal

British Admiralty Is Assured Of Supply Of Fuel If Strike Lasts.

Halifax—There is a possibility of the British Admiralty purchasing Newfoundland coal, according to a cable received by Mr. John Howard, Agent-General for Nova Scotia in London. The Admiralty asks that the coal companies quote the lowest prices, free on board, and that the coal be delivered to the port of Halifax as soon as possible. An immediate reply is requested.

Montreal—Roy M. Wolvin, president of the Dominion Steel Corporation, corroborating the dispatch from Halifax, stated on behalf of the British Admiralty that the British government had harassed the leaders of the Republican side persistently for more than four hours. Charges that the Republicans had "deliberately" set fire to the "Sparta" were hurtful, not only to Representative Garrett, Tennessee, acting Democratic leader, but by Representative Newlin, Minnesota, and Representatives Luce, Massachusetts, both Republicans as well.

Death of Venerable Priest

Father Dandurand Maintained His Faculties to Very Last.

Winnipeg—Rev. Father Daniel Dandurand, O.M.I., who on March 23 last, at the age of 85, died in his sleep, died of his birth, died on Wednesday at St. Boniface, Man. He was the oldest Catholic priest in the world, being born on March 23, 1819, in the village of L'Isle-Prarie, Que., of pure French parentage.

The aged priest has been an active worker in the priesthood since the day of his ordination nearly 80 years ago. He was the first French-Canadian to be sent to the United States to assist the Sisters of Mary Immaculate, a band of devoted missionaries who were practically responsible for all of the pioneer work of the Roman Catholic Church in the west.

The venerable priest played an important role in the affairs of about 47 years, where he was vicar general of the then diocese.

Chicago Police

Will Use Wireless

Plant Being Installed on Roof of City Hall.

Chicago—Wireless telephones are to be used by the Chicago police in their war on crime.

A \$12,000 plant is being installed on the roof of the city hall for constant communication with rifle squads, fire departments, police stations, and other departments of the city. W. M. G. Keith, commissioner of gas and electricity, who proposed the experiment, said that he hoped ultimately to have every policeman equipped with receiving apparatus which weighed only a few ounces and can be concealed under his clothing.

Veterans Are Opposed

Say "Unknown" Buried in London Represents Canadians.

Toronto—A suggestion made by J. B. Seggie, of Ottawa, that the body of an unknown Canadian soldier be brought from France and buried in Canada, has been rejected.

Winnipeg—The Provincial Government is prepared to extend to the new owners of the Flin-Flon Mine at The Pas, providing they will put up a minimum claim of \$100,000.00 a month on the property. The Flin-Flon Mine is owned by W. M. G. Keith, commissioner of gas and electricity, who proposed the experiment, and he had anticipated that the property would be built up, according to Hon. Edward Brown, provincial treasurer.

In the meantime, Mr. Brown announced, the Government has had nothing from the new owners as to their intention in connection with the proposal to build a railway to the property, the work of which is to be done by the Canadian Pacific.

In a statement, Mr. Brown said:

"I am sure that the new owners will, with a view to putting the properties on a producing basis,

For Better Farming Methods

Hon. C. M. Hamilton, Minister of Agriculture in the Saskatchewan Government, who called the conference of agricultural experts held at Saskatoon.

Hon. C. M. Hamilton, Minister of Agriculture in the Saskatchewan Government, who called the conference of agricultural experts held at Saskatoon.

Transport Workers Break Away From The Triple Alliance

Problems Facing the Farmer

Conference of Agricultural Experts Held at Saskatoon.

Saskatoon—After being in session for three days the conference of officials of the Provincial Department of Agriculture, representatives of agricultural organizations of the provinces, officials of Dominion agricultural bureaus, railway representatives and those from implement companies and banks, came to a close.

During the past three days every question of importance in agriculture under consideration and discussion. The leading experts of Saskatchewan in all kinds of agricultural development have sat at their tables, and have been able to get from other industries, in the extent to which Frank Hodges, general secretary of the Miners' Federation, would be able to maintain authority over them to discuss these difficulties.

No note of pessimism was struck throughout the conference. While fully recognizing the problems which face the agricultural workers, every speaker also recognized that they were capable of being overcome. In the closing moments of the conference the miners' speakers, in particular, emphasized the fact that those members of the College of Agriculture staff who had been attending the conference had done so with the distinct feeling that from it would be born the suggestion of an extremely valuable character to them in their work of research.

Hon. C. M. Hamilton, in bringing the conference to a close, said he had attended in confidence in the meeting and was satisfied with the progress made by the experts in the farming community of Saskatchewan, to know that sooner or later the difficulties of soil blowing, short crops, better livestock and so forth would be solved with results satisfactory to the population of the province as a whole.

The breaking away from the triple alliance by the railwaymen and transport workers, on the miners' rejection of the moderate course recommended by the Miners' Federation, will very likely be a temporary adjustment of the wage dispute, seems to have brought matters to a crisis where it was imperative to take a decision one way or another. Mr. Hodges, it is to be hoped, will be able to discuss with his colleagues having made up their minds, a peace offer to members of the House of Commons, Thursday evening without authority. He is said to have immediately tendered his resignation.

Although the general situation is considered to have greatly improved by the failure of the railwaymen and transport workers to carry out their projected strike tonight, the Government has not relaxed its measures, military and otherwise. The recruiting of the defence force continues actively.

British Gold For U.S.

Washington—Receipt of \$100,000 in gold from the British Government for the first installment on the debt of \$122,000,000 for silver purchased during the war, was reported to the treasury. The next installment falls due May 15, when \$17,000,000 becomes payable.

Comets To Wed.

New York—Samuel Gompers, president of the American Federation of Labor, has announced the announcement of his engagement to Mrs. George Gleaves Nesbitt, of this city. The marriage will take place in the near future.

May Negotiate for Naval Reduction.

Washington—The first move in the present Congress looking to disarmament came with the introduction by Senator Borah, Republican, Idaho, of a bill to open up negotiations with Great Britain and Japan looking to a reduction in future naval building by those countries and the United States.

Ice Flows Steer Steamers South.

Boston—Gigantic ice flows from the polar sea have moved south to the latitudes in the North Atlantic that correspond with this city, and have forced the moving of trans-Atlantic steamers 180 miles south of the usual lines at this season.

Sir Arthur Varsas Assassinated.

Dublin—Sir Arthur Edward Varsas, former Ulster King-Of-Arms, was shot dead at Limerick, and a bullet was found in his heart. A son attached to the British service, "Ireland, we never forget—I.R.A."

Employed Abandon Arbitration.

Calgary—The civic employees agreed to abandon their demand for arbitration of wage increases and working conditions, and will accept the wage schedule as it now stands for the coming year.

Petroleum Geologists Predict That the Present Known Oil Resources of the United States Will Be Exhausted in Twenty Years.

Revolt in Southern Russia Is Spreading

Reported That Don Cossacks Have Joined Anti-Bolshevik Leader.

Copenhagen—The special correspondent of the Bellegarde Tidende at Helsingfors says he learns that the peasant revolt in Southern Russia is spreading like wildfire. He reports that the members of the Tatars, Voronezh, Kursk and Samara, are in the hands of the rebels and the fall of Kharkov is imminent.

Bolshevik army, sent to the relief of Kharkov, both were cut off from their base of operations. The Don Cossacks have joined General Antonov, the anti-Bolshevik leader.

The revolt is said to be extremely serious for the Soviet Government, the districts affected being the richest in Russia.

World Happenings Briefly Told

During March, 25,694 men were recalled in Detroit shops and factories.

R. R. Maitland, well known barrister of Vancouver, B.C., is dead.

Several minor earthquakes have occurred in Southern China.

Chicago police will be equipped with wireless telephone apparatus.

Italy has decided to electrify 5,000 miles of railways.

The Toronto branch of the Canadian Authors' Association have held their initial meeting.

California fruits and nuts, with the exception of oranges, lemons and cherries, showed less production in 1920 than in 1919.

At the old rate of exchange, cost of meager living a year in Russia has mounted to \$46,000, according to Lloyd's.

Average density of the population in the United States is 35.5 persons a square mile of land area, compared with 30 in 1919.

The issue of ten million dollars worth of bonds has been authorized by Toronto city. The money will be used for the rehabilitation of the street railway.

Frank Sweeney, head of the American Division of Toronto, has written a letter to the clergy of the Toronto diocese in which he favored prohibiting the importation of liquor into Ontario.

Ontario Great War Veterans are opposing the burial of an unknown Canadian soldier in their grounds, that the Donovans were responsible in the economy which took place at Westminster Abbey.

The hen that does the cackling may not have laid the egg, U.S. government farm experts assert. They advise farmers to use trap nests to pin the cacklers down to facts in the way of economy.

Rumors of the existence of a secret defensive and offensive agreement between France and Great Britain have no foundation in fact. Austen Chamberlain, the Government leader, so announced in the House of Commons.

Germany in the light of President Harding's statement that she must mobilize her productive strength and strive by hard work to extricate herself from her mortally dangerous position," says the Vossische Zeitung.

Hon. W. E. Raney, in the Ontario Legislature expressed the opinion that there is too much leniency exercised at Ottawa in pardoning prisoners.

Minard's Liniment for Sale Everywhere

The Hand of Fellowship.

After all, it would indeed be a barometer of the times if we were entirely in the hands of Calvary.

Twenty-nine Clivedales, twenty-three Piercerons, eight Shires, fourteen Beltons, fifty-six agricultural and twenty drivers, drivers' helpers, seven and bared, nine light grade foals, and sixteen roadsters, one hundred and twenty-nine carriage, seven in various grades, thirty-three ponies, one hundred and sixty-five saddle, one hundred and thirty-five saddle, one hundred and thirty horses and jumpers.

Costly Boile Propaganda.

According to information from Berlin, Germany, the cost of the propaganda of Great Britain and the United States in arms were to be followed by estrangement and veiled hostility. Fortunately all the signs point to the development of a cordial spirit of cordiality between the two countries notwithstanding the somewhat formidable list of problems which confronts them and the malignant efforts of certain people to use that list for ignoble purposes of division and strife.

"Your Teeth"
By Rea Proctor, M.D.,
D.D.S., Editor of Oral Hygiene.
DO IT NOW.
Copyright, 1921, by Rea Proctor
McGee.

It is very encouraging to think that "you can do it now" to your teeth, but there is so much damage done that there is nothing left but the repair.

The best way to avoid damage is to take care in the first place. If a child is to take care of his teeth from infancy, those teeth will do their work and give comfort, health and beauty.

The teeth, the gums, the tongue and the cheeks of every child should be brushed thoroughly twice each day.

Every child should have its own brush and a can of good tooth paste.

The brush must be kept very clean. When the teeth are to be washed, the brush should be in running water and the paste or powder placed on the brush.

Then the chewing surface of the teeth should be thoroughly brushed, both above and below.

Wet the brush again and brush thoroughly the lingual or tongue side of the teeth.

First, scrub them well with a clean brush, then place the brush at the gum margin and move it in turn and brush straight to the chewing surface, paying particular attention to cleansing the spaces between the teeth.

Repeat this on the labial, or outside of the teeth, with equal care of water and dentifrice.

After these movements have been completed, brush the inside of the cheeks and lips, then the gums and finally the tongue.

Rinse the mouth with clean water or a mild mouthwash, then wash the tooth brush and hang it up to dry until it is time for the next "tooth bath."

Don't put two more tooth brushes in one container.

Hang up every brush by itself so that it will not be touched by any other.

Dragged Down by Asthma. The man who was a confirmed subject to asthma is miffed for his or her work. Strength depends upon taking many quiet walks to become a dream existence. And Dr. J. D. Kellogg's Asthma Remedy has brought a great many more people to believe that it relieves the restricted asthma and guards against future trouble. Try it.

Calgary Horse Show

Large Number of Entries Contributed Success Event.

A total of eight hundred and fifty-four head of stock were entered in the show held in Calgary.

Twenty-nine Clydesdales,

forty-four Belgian, eight Shires,

forty-four Percherons, eight Suffolk

Punch, fifty-six agricultural and

twenty-four thoroughbreds, seventeen

and bared, nine light grade foals, and

one hundred and twenty-nine carriage

seven in various grades, thirty-three ponies, one hundred and sixty-five saddle, one hundred and thirty-five saddle, one hundred and thirty horses and jumpers.

Increase in Tuberculosis.

Deaths from tuberculosis in England and Wales are decreasing rapidly. The figures are given by the Ministry of Health, as 46,412 in 1919, against 58,073 in 1918.

Externally and Internally It Is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be applied externally to the skin as well as internally. For sore throat, cough, whooping cough, pains in the head, toothache, rheumatism, etc., notwithstanding the somewhat formidable list of problems which confronts them and the malignant efforts of certain people to use that list for ignoble purposes of division and strife.

Looks Likely Enough.

Can Germany pay the indemnity? Mr. Charles M. Schwab, who has been studying conditions in Germany, gives the answer, "Yes, it is possible." "Will recover from the effects of the war much sooner than any other of the European countries involved in it?"—Calgary Herald.

Advances made by Canada to Great Britain up to the time of the armistice, totalled \$94,638,368.16.

Twenty thousand women are employed in the fruit and vegetable packing industries in California.

Pleasures are the continuance used to punctuate life's sad story.

Minard's Liniment for Dandruff

It Works Wonders On Colds, Catarrh, Bronchitis, Weak Throat

What your throat aches, your lungs and chest are sore, your throat is stupefied with cold—don't fear consequences. It clears the throat, stops hacking, relieves tight chest and soreness. Catarrh of the nose and throat could be better. Catarrhose is the most effective remedy for throat, lung and bronchial trouble, recommended by many specialists for the last two days. Get the dollar outfit; it lasts two months, size 16, 50c; trial size, 25c; at all druggists or the Catarrhose Co., Montreal.

B.C. Forest Fires

During Last Year 390,000 Acres of Forest Burned.

Statistics compiled by the forest branch of the Provincial Government show that during last year 390,000 acres of timber were burned in British Columbia. The damage was estimated at \$2,000,000, or \$5,000 an acre. The damage to the forest in 1919 was estimated at \$168,000, or a total of \$485,000, as compared with \$392,000 in 1918.

Of the season's fires 345, or 28 per cent, were caught and extinguished before they had reached a quarter of a mile in diameter.

First, scrub them well with a clean brush, then place the brush at the gum margin and move it in turn and brush straight to the chewing surface, paying particular attention to cleansing the spaces between the teeth.

Repeat this on the labial, or outside of the teeth, with equal care of water and dentifrice.

After these movements have been completed, brush the inside of the cheeks and lips, then the gums and finally the tongue.

Rinse the mouth with clean water or a mild mouthwash, then wash the tooth brush and hang it up to dry until it is time for the next "tooth bath."

Don't put two more tooth brushes in one container.

Hang up every brush by itself so that it will not be touched by any other.

VALENT'S PINK PILLS Enrich Blood. Thus Enhancing Your Nervous Energy.

Nervous people who have not yet developed a disease can be recognized and treated by the physician.

Those who have been in several attacks of the disease can be relieved by the little net tucker that gives such a pleasant line to the decolletage. The puffed sleeves are made entirely of lace, while the formal hook-and-eye lace is enriched with rose, periwinkle and honeysuckle are their colors.

Worms, however, generated, are found in the digestive tract, where they set up destructive derangements to the health of the body. The worms can be no better than the intruders have been reported. An example is in several cases of the little net tucker that gives such a pleasant line to the decolletage. The puffed sleeves are made entirely of lace, while the formal hook-and-eye lace is enriched with rose, periwinkle and honeysuckle are their colors.

Worms, however, generated, are found in the digestive tract, where they set up destructive derangements to the health of the body. The worms can be no better than the intruders have been reported. An example is in several cases of the little net tucker that gives such a pleasant line to the decolletage. The puffed sleeves are made entirely of lace, while the formal hook-and-eye lace is enriched with rose, periwinkle and honeysuckle are their colors.
